

NOTIFYING DFO OF ACTIVITIES

The Aquatic Invasive Species Program (Department of Fisheries and Oceans) would like to receive notifications for early detection monitoring activities prior to trapping, including:

Licence number:
Name on licence:
Names of people trapping:
Team lead contact:
Trapping area/location:
Types of fishing equipment being used: minnow, folding prawn traps, prawn traps
Date/time of trap deployment:
Date/time of trap retrieval:

An email can be sent to:

DFO.AISPacific-AISPacifique.MPO@dfo-mpo.gc.ca and Conservation and Protection Officers in your region (see list below). Or you can reach DFO Radio (1-800-465-4336) outside of business hours.

If there are any fish mortalities when traps are retrieved, or if any traps are lost, send a follow up message to provide details.
